

DINNER FOR »THE BOSS«

By: † [Mukil](#) †

Alice was delivered to »The house« that day. The house serves great quality fresh meatgirls.

The owner of »The house« is called The Boss«. No one knows his real name or origin and no one cares. All they know is that he runs great BBQ parties where special and the most tasty girl meat is always served.

Bosses huntress work 24/7 to provide the finest quality girl meat for his BBQ parties.

Boss decides how this girl meat will be prepared. He decides if it's to be spited alive or if it needs a little pre – work. This time he decided that this meat girl could make a real mess at the party, so it needs to be hanged before roasting.

... So this is how I will end. Hanged meat for the boss. All I can hope is that they will do it quick and I won't feel much pain. I guess all that's left for me to do now is to make as less mess as posible.

...seems that bitch will get the pleasure to hang me. Time to make some real problems...I won't go away that easy!!!!...

Hanging procedure is really simple. One gets placed on the chair and the chair gets removed when meat is standing on it.

This is always done by a huntress who caught the meat.
Meat girls can make some real problems during the procedure, but our huntress is one of the quickest.

Alice was thinking of several ways of saving herself at the moment. Perhaps there is a way: Something to do with the chair, the rope, trying to convince The Boss, her time was running out fast, really fast.

The huntress took care of all details. Alice's legs needed to be firmly standing on the chair, the rope needed to be tight enough and the chair should be high enough.

The meat needed to be hanged now. Guests were coming soon and lots of work still needs to be done.

When all of these details were checked, the chair could be removed.

Alice was struggling to get some air, but the rope was getting tighter on her neck, soon it was to tight.

When Alice stopped struggling »The Boss« got new exclusive roaster for his party.
Lots of work still needed to be done, but that's another story.
